Education

The University of New Mexico

BBA, Finance | BS, Applied Mathematics

Albuquerque, NM

Expected graduation: May 2027

- GPA: 4.27 / 4.33 | Dean's List | UNM Academic Amigo Scholarship
- Relevant Coursework: Linear Algebra, Numerical Methods, ODEs, Derivatives, Applied Investment Management | Upcoming: PDEs, Probability, Scientific Computing, Stochastic Processes, Real Analysis, Machine Learning, Bayesian Modeling

CFA Program

CFA Level I Passed (Feb 2026) | CFA Level II Candidate

Exam Date: Aug 2026

Work & Leadership Experience

Portfolio Wealth Advisors

Albuquerque, NM

Investment Analyst Intern

Jun 2025 - Dec 2025

- Supported portfolio construction and asset allocation across **150+ HNW client accounts (\$1M–\$10M AUM)**.
- Analyzed financial statements, credit metrics, and market data (**Bloomberg**) to support fixed-income and equity decisions.
- Built **Excel-based models** for retirement planning, tax-advantaged optimization, and performance reporting.

Personal & Family Portfolio

Albuquerque, NM

Self-Directed Investment Management

Sep 2025 - Present

- Manage a **~\$185K** multi-asset portfolio across **equities, bonds, ETFs, futures, and options under a self-authored IPS**.
- Implement position sizing and risk controls; monitor **time-weighted returns, beta, volatility, and max drawdown weekly**.
- Built the **IPS** and workflow from scratch to internalize institutional portfolio management practices before professional deployment.

Lobo Investment Club

Albuquerque, NM

President

Feb 2025 - Present

- Led equity research** presented to UNM's Investment Advisory Committee, which manages the **\$6M Regents Endowment**.
- Raised \$100K in donor funding** by pitching the club's initiatives to our industry partners and donors.
- Organized speaker series and workshops on investing, markets, and recruiting. **Increased student membership 2x** in one year.

Financial Accounting Teaching Assistant, Anderson School of Management

Jan 2025 - Present

Trading & Math Competitions

CQA Investment Challenge – 1st Place

Oct 2025 - Apr 2026

Global Quantitative Long/Short Equity Competition

- Built a **market-neutral L/S equity strategy** using **12-1 cross-sectional momentum** with **~166%** gross exposure, rebalanced monthly via Axioma US51 risk model. Generated **~29% return** over the competition period (~6 months).
- Zero compliance violations** under strict position limits and neutrality constraints.
- Achieved **#1 ranking across returns, risk management, and final presentation** among competing university teams.

CME Group Trading Challenge – 30th of 2,789 participants (Top 1.1%)

Apr 2026

- Thesis-driven discretionary trading across futures (rates, equities, commodities); **12 trades**, disciplined position sizing.

Research

The CRR Binomial Model: Convergence, Oscillation, and Calibration (Python)

Link: github.com/daviddavilad/option-pricing

- Proved CRR convergence to Black-Scholes via Lindeberg-Feller; characterized oscillation; implemented on Python.

Geometric-Center Binomial Option Pricing | Co-author with Dr. Hsuan-Chi Chen | Faculty Aide, Fall 2026

- Co-authoring publication on the GCRR binomial model extending Cox-Ross-Rubinstein to reduce convergence oscillation.

Quantitative Trading & Market Projects

Axiom Fund | Systematic Market-Neutral L/S Equity Research Engine (Python)

Link: github.com/daviddavilad/axiom-fund

- Top-1000** CRSP backtest: 4-signal composite (GP, IVol, ResMom, PEAD), neutralized convex MVO; gross Sharpe 0.78 over 9.8y.
- Net Sharpe 0.18–0.48** after spread/impact/borrow; IC shows PEAD $t=2.67$ strongest, ResMom $t=0.26$ (factor decay).
- 308 unit tests**, methodology audit (PIT discipline, delisting per Shumway 1997, EPS split-adjustment via Compustat ajexq).

Athletics

UNM Lobo Men's Golf – NCAA Division I

Albuquerque, NM

NCAA Division I Varsity Athlete | +4.5 Handicap

Aug 2023 - May 2025

- Mountain West Scholar-Athlete Award (2025)** | **UNM All-Academic Team (2025)**, highest GPA on Men's Golf roster

Skills, Activities & Interests

Programming: Python (pandas, NumPy, SciPy, cvxpy, matplotlib, yfinance, wrds), MATLAB, R, Git | **Learning:** C++, SQL

Technical: Bloomberg Terminal, Excel (financial modeling, PivotTables), PowerPoint

Markets: Portfolio Optimization, Fixed Income Analytics (duration, convexity, yield curve), derivatives, asset allocation, risk management

Languages: Spanish (Native), English (Fluent), Mandarin Chinese (HSK 3 Official Proficiency Exam)

Interests: Competitive golf, Snowboarding, Quantitative investing, Distance Running
